COMBINE HARVESTER HEADER CART

Easing transportation

The AgriCAD TC900 and TC911 heavy duty combine harvester header cart gives the farmer a safe and easy alternative to move the table between the farm and fields. Keeping the progressive farmer's needs in mind, the table carts have been designed with the following practical benefits:

Implement characteristics:

- Designed to handle a table of up to 4.5 ton (TC900) and 5.5 ton (TC911)
- Low loading height to make hitching easier
- Beam of 27 feet (TC900) and 38 feet (TC911) supports the table
- Standard light box with chevron
- Steering mechanism to keep the follow-up of the cart's tracks as close as possible to that of the harvester
- Adjustable resting supports on the cart
- Linear adjustable settings of brackets on the main beam
